
Matt Engledowl

EXPERIENCE

Cofounder, CauseOS

Fayetteville, AR - 2015-present

Co-founded CauseOS to serve the nonprofit industry by providing integrated supporter management tools.

Responsibilities

- Constructed and designed both the public (developer) and private (internal) rails APIs. Notable features:
 - Supporter database, including automated groups and advanced search capabilities
 - Custom forms
 - One-time and recurring donations
 - Transactional email system
- Aided in decision-making about the direction of the company.

Accomplishments

- Interviewed for Y Combinator
- Built a customer base of over 100 different nonprofit organizations.

IS DCS Intern, JB Hunt

Lowell, AR - 2011-2015

Responsibilities

- Contributed bug fixes and enhancements to high visibility systems, both individually and as a part of small teams.
- Worked on a high-profile proof-of-concept for a much needed exception monitoring system to alert managers to situations that needed their attention.
- Was the designated expert on the FinalMile project/website, and worked with a team to ensure it's quality.
- Built mobile version of the FinalMile website.

EDUCATION

University of Arkansas - B.S. in Information Systems, May 2015

SKILLS

- Programming: Ruby/Ruby on Rails, Java, C#, SQL, Javascript/jQuery, Visual Basic, VBScript, HTML, CSS
- Databases: PostgreSQL, MySQL, Microsoft SQL Server, DB2
- Experience with: AWS (S3, Cloudfront), Heroku, Elasticsearch, Sidekiq, Git, Subversion
